

Polyprint Software Overview

Purpose

LABELS

TEXT

GRAPHICS

BARCODES

To complement our range of Thermal Identification Tapes Polymark can provide in-house Systems for your printing requirements.

Polyprint Software

Easy to use and allows you to generate and store your own labels containing text, graphics and barcodes. The software enables you to create and maintain a database of names, grades, departments and customers providing fast reference and rapid batch label generation.

Printing Consumables

Thermal ink ribbons offer the best possible match to our identification tapes to ensure a high quality and robust print for long-lasting readability.
